### Document Body

Dear Dr. Vaiaga'e:

Thank you for your letter, dated January 9, 2008, requesting technical assistance concerning the catastrophic release of diesel fuel at the COS Samoa Packing cannery facility in American Samoa.

Norwood Scott, PIO's SPCC and UST Inspector, will be visiting ASEPA January 28 -31, 2008, and as a result of this incident, will conduct a federally mandated SPCC inspection of COS.

This inspection will take place in the afternoon of January 28th and is "unannounced" except that Faamao or Peter will call COS in the morning of January 28th to advise them of Norwood's inspection. Also, I am requesting that Peter and Faamao accompany Norwood on his inspection at COS.

While in American Samoa, Norwood will also be conducting UST inspections that have been coordinated with Faamao.

I very much appreciate ASEPA's earlier response to the COS incident and the information provided by ASEPA is invaluable. For our records, I have attached your letter or request, and a report from COS concerning the incident, which arrived moments ago.

-Carl
